	Rule 20	
RE	PLACEMENT OF OVERHEAD WITH UNDERGROUND ELECTRIC FACILITIES (continued	)
	Page 3	-
	<ol> <li>Fifty percent based on the ratio that the number of overhead meters in the city bears to the total system overhead meters; and</li> </ol>	
	(2) Fifty percent based on the ratio that the total number of meters in the city bears to the total system meters. When the territory is annexed to an existed city, it shall be the responsibility of the city and county affected, in consultation with BVES serving the territory, to agree upon an amount of the 1990 allocation base that will be transferred from the county to the city, and thereafter to jointly notify BVES in writing.	(T)
d.	However, Section 2 a, b, and c shall not apply to any utility where the total amount available for allocation under Rule 20-A is equal to or greater than 1.5 times the previous year's statewide average on a per customer basis. In such cases, BVES' total annual budgeted amount for undergrounding within any city or the unincorporated area of any county shall be allocated in the same ratio that the number of overhead meters in the city or unincorporated area of the county bears to the total system overhead meters.	(T)
e.	Upon request by a city or county, the amounts allocated in accordance with Section 2. a, b, c, or d may be exceeded for each city or county by an amount up to a maximum of five years' allocation at then-current levels may be exceeded where BVES establishes that additional participation on a project is warranted and resources are available. Such allocated amounts may be carried over for a reasonable period of time in communities with active undergrounding programs. In order to qualify as a community with an active under-grounding program, the governing body must have adopted an ordinance or ordinances creating an underground district and/or districts as set forth in Section A.1.b. of this Rule. Where there is a carry-over or additional requested participation as discussed above, BVES has the right to set, as determined by its capability, reasonable limits on the rate of performance of the work to be financed by the funds carried over. When amounts are not expended or carried over for the community to which they are initially allocated, they shall be assigned when additional participation on a project is warranted or be reallocated to communities with active undergrounding programs.	(N)
is	ne undergrounding extends for a minimum distance of one block or 600 feet, whichever the lesser. Upon request of the governing body, BVES will pay from the existing location of that entity for:	
a.	The installation of no more than 100 feet of each customer's underground electric service lateral occasioned by the undergrounding, and/or	
b.	The conversion of a customer's meter panel to accept underground service occasioned by the undergrounding, excluding permit fees.	 (N)

the	ES or the governing body may establish a lesser allowance, or may otherwise limit amount of money to be expended on a single customer's electric service, or the total bunt to be expended on all electric service installations in a particular project.	(N)   (N)
electr locati	sumstances other than those covered by A above, BVES will replace its existing overhead ic facilities with underground electric facilities along public streets and roads or other ons mutually agreed upon when requested by an applicant or or applicants when all following conditions are met:	
а	All property owners served from the overhead facilities to be removed first agree in writing to have the wiring changes made on their premises so that service may be furnished from the underground distribution system in accordance with BVES' rules and that BVES may discontinue its overhead service upon completion of the underground facilities, or	(T)
b	Suitable legislation is in effect requiring such necessary wiring changes to be made and authorizing BVES to discontinue its overhead service.	
	The applicant has: Furnished and installed the pads and vaults for transformers and associated equipment, conduits, ducts, boxes, pole bases and performed other work related to structures and substructures including breaking of pavement, trenching, backfilling, and repaving required in connection with the installation of the underground system, all in accordance with BVES' specifications, or, in lieu thereof, paid BVES to do so;	(T)
b	Transferred ownership of such facilities, in good condition, to BVES; and	(T)
с	Paid a nonrefundable sum equal to the excess, if any, of the estimated costs, including transformers, meters, and services, of completing the underground system and building a new equivalent overhead system. The cost of removal of the overhead poles, lines, and facilities are the responsibility of BVES and will be paid by BVES. Such payments shall not operate to reduce Rule 20.A allocations.	(N) 
0	he area to be undergrounded includes both sides of a street for at least one block 600 feet, whichever is the lesser, and all existing overhead communication and ectric distribution facilities within the area will be removed.

	REPLACEMENT OF OVERHEAD WITH UNDERGROUND ELECTRIC FACILITIES (col	ntinued)
		Page 5 of 5
	4. BVES may, when requested and authorized by the city or county and mutually agreed upon by such government entity and BVES, initially fund any required engineering/design costs for conversion projects under this section. In the event such a project proceeds, the requesting city or county shall reimburse BVES for such engineering/design costs before BVES shall be required to commence further work on the project. In the event the project is not approved to proceed within two and one half years of BVES's delivery of such engineering/design study, the requesting city or county shall reimburse BVES for its costs of such engineering/design study within 90 days of a demand by BVES. In the event a city or county does not reimburse BVES within 90 days of its demand for reimbursement, BVES shall be permitted to expense such costs as an operational cost and shall reduce the city or county's allocations provided under Section A of this Schedule by the like amount.	(N         
C.	In circumstances other than those covered by A or B above, when mutually agreed upon by BVES and an applicant, overhead electric facilities may be replaced with under- ground electric facilities, provided the applicant requesting the changes pays, in advance, a nonrefundable sum equal to the estimated cost of the underground facilities less the estimated net salvage value and depreciation of the replaced overhead facilities. Under ground services will be installed and maintained as provided in BVES' rules applicable thereto.	(T_
D.	The term "underground electric system" means an electric system with all wires installed underground, except those wires in surface mounted equipment enclosures.
